EXPERIENCE

Marketing Automation Intern, **Coop Pank,** *Tallinn, Estonia* Jun. 2026 to Aug. 2026

- Designed and implemented a credit card customer acquisition and engagement journey, leveraging custom behavioral scoring, a next-best-offer model and personalized messaging for 8 customer segments.
- Developed and presented an investment product pitch with a 4-person cross-functional team, evaluating customer needs and market positioning; collaboratively prototyped the solution in a week using Copilot and Claude.
- Analyzed global neobank credit card marketing strategies and presented recommendations to marketing leadership, identifying opportunities to improve Coop Pank's credit card marketing approach.

Technical Assistant, **NYU Film & TV Production Repair Shop,** *New York, NY* Sep. 2024 to Present

- Maintained and repaired A/V equipment across a rental inventory of thousands of items.
- Diagnosed and documented equipment errors for faster identification and repair.

PROJECTS

Data Analyst, **DS-100 Final: Big Publishers, Big Success?** (Python, Pandas & Matplotlib, Apr. 2026) slides code

- Analyzed if price and review scores can predict revenue across 173 AAA and AA Steam games; found that neither input alone explained earnings in linear or logarithmic models, highlighting the need to model games as multivariate products.
- Collaborated on a tight deadline to define the research question, highlight limitations, clean the dataset in Pandas, and summarize findings in a clear takeaway-focused presentation.

Production Manager & Narrative Lead, **The House 2** (Canva & Slack, Mar. to May 2025) itch doc

- Directed narrative and wrote ~23% of story content for a 12-ending paperback branching story game that balances narrative, puzzles and agency; selected as 1 of 4 games to represent the freshman class for the Spring Showcase.
- Managed 8 weeks of team sprints for a 4-person project team, coordinating responsibilities, progress and milestones.
- Created design documentation (map, story flowchart, page info) for team-wide informational consistency.
- Ran weekly playtest sessions analyzing player behavior, iteratively improving puzzle pacing and narrative clarity.
